INTERIORS**

'Tis the season for holiday travel, and before visions of long lines, cranky kids and bad weather come to life, follow our lead with these travel must-haves for a stress-free and fun family vacation.

by lauren carlitz bier

## Bottle Rocket

Don't cry over spilled wine! Wineskin® is the solution to traveling safely with wine and spirits with a leak-proof bottle-shaped bag made of tough yet flexible puncture-resistant PVC, and the bubble wrap lining is topped with double peel & stick seals. Our tester threw a full bottle of wine secured in a Wineskin onto a ceramic tile floor at full force three times in a row and not one shard of glass nor drop of wine left the bag! \$9.95 for two, [magellans.com](http://magellans.com)

\* For best results, push bottle up as far as it will go into bag, then carefully close first adhesive tab from absolute end to end, leaving no air bubbles, bends or flaps. Then proceed with the same very precise closure of second tab.

## Road Less Traveled

Trackstick Mini, the smallest personal GPS tracker available, knows all! It will run anywhere on the planet, thanks to its super-sensitive 360° GPS antenna working with Google™ which keeps a record of routes, stops, temperatures and more. Its lithium ion battery charges through any computer, where you can also review tracking history. Pop it into your hand or pocket for a challenging trek up a mountain or a simple trip with your kids to the mall. \$299.99, [gearhstore.com](http://gearhstore.com)

## Sound of Silence

Plug in Bose QuietComfort® 15 Acoustic Noise Cancelling® headphones and say good-bye to the world for a while. Advancements in noise reduction technology offer crystal clear music and movie audio, with microphones both inside and outside of the very cushiony earcup. Or wear headphones unplugged for a quiet respite. Created with airplane travel in mind, each set of QC®15 headphones offer 35 hours of uninterrupted listening so even globetrotters can stay in tune. \$299.95, [bose.com](http://bose.com)

## Germaphobe Gem

Flip open the Nano UV Disinfectant Scanner to zap away bacterial and viral DNA on chair cushions, bedspreads and more with a quick scan using safe and effective ultraviolet (UVA, UVB & UVC) light technology. Just pop a few AAAs into this cell phone sized device for on-the-go germ protection wherever you may roam. (Not intended for use on humans or animals.) \$79.95, [zadroinc.com](http://zadroinc.com)

## Flip It Good

MinoHD Flip is the supermodel of mirror camcorders – slim, sleek, fashionable. Only the highest quality will do... in this case, stunning HD. High maintenance more with easy built-in USB arm which conveniently plugs into PC or Mac to charge, download or launch pre-loaded FlipShare™. Or simply plug directly in
